Product Width:	10.71"	Material Type:	Lead free brass
Spout Height:	7.32"	Handle Material:	Zinc Alloy
Spout Reach:	8.66"	UPC:	810792033694

BUILT TO LAST LONGER

Solid brass, one-piece body construction, and wear-resistant silicone gasket resists deterioration, lasts longer, and has fewer leakage points than cheaper faucets.

SMOOTH WATER FLOW

The durable, high-quality ceramic cartridge and anti-splash laminar spray mechanism ensure even, smooth water flows 2 to 3 times longer over time than competing faucets. The Felis faucet has a Low Flow complaint rate at 1.75 GPM and an aerator anti-scale function that allows for easy removal of water scale build-up, extending the life of your faucet.

CARE FOR THE ENVIRONMENT

Kirchoff makes sure the production in Germany as well as the materials used are sustainable. Also, your new kitchen faucet comes in environmentally friendly packaging without plastics.
